To: Whom it May Concern

From: John Archambo, Director  
Customer Relations

**Subject: Bergeron Emergency Debris Management Services**

---

Palm Beach County was impacted by Hurricane Irma on Sunday, September 10, 2017, which generated approximately 3 million cubic yards of storm debris to be collected, reduced and transported to a final disposal (recycling) destination.

The Solid Waste Authority of Palm Beach County (SWA) is the agency responsible for the cleanup of storm debris impacting the County. Bergeron played a key role removing and transporting eligible storm debris material in a very safe and timely manner.

Bergeron's constant communication before, during and after Hurricane Irma provided a true sense of confidence in the task before us. They are a proven and experienced disaster response team that will exceed a customer's expectations at every turn. Bergeron always provides a very high quality team of managers that communicate and organize an outstanding cleanup effort.

The Bergeron team is also well aware of all FEMA eligibility requirements, responding immediately to any and all challenges presented during a natural disaster.

It is truly a pleasure working with the Bergeron team and I can assure you this company will not disappoint.

You may feel free to contact me at 561-697-2700, ext 4725 if you require any further information.
